

FINAL REPORT

Technology Upgrade and Conducting Accessibility Assessments at 400 State-Operated Recreation Sites

Inclusive Recreation Resource Center

**Developmental
Disabilities
Planning Council**

December 2013 to November 2015

PROJECT SUMMARY

Since its inception in 2007, the Inclusive Recreation Resource Center has actively promoted and helped sustain inclusive recreation for ALL people. Through the development of the *Inclusivity Assessment Tool*, the day-long *Inclusion U* training, and the ever-growing online recreation database, the IRRC has been instrumental in helping all people play wherever they choose.

This project focused on making the IRRC's work even more accessible to even more people with even more relevant recreation data.

How?

- Through the migration of the *Inclusion U* training to an online format, Inclusion U Online
- The redesign of the website
- The redesign of the online recreation database to a more streamlined and mobile platform
- The streamlining of the *Inclusivity Assessment Tool* (IAT) to allow data to be entered into the database more efficiently and by more people
- The development of an app for mobile use
- The development of a trail assessment checklist
- Working with two partners, NYS DEC and NYS OPRHP to assessing state-administered recreation sites throughout the state of New York

Our project rolled out according to plans. This report shares the outcomes of this work and future steps.

OUTCOMES

Inclusion U Online

Target Outcome: 1 Inclusion U Online

Actual Outcome: 1 Inclusion U Online

Inclusion U Online is a 9-module training that can be completed in 10 hours. Working with Gorges, Inc., based in Ithaca, NY, we developed and implemented a learning management system that is responsive in design, allowing users to complete the training on any device.

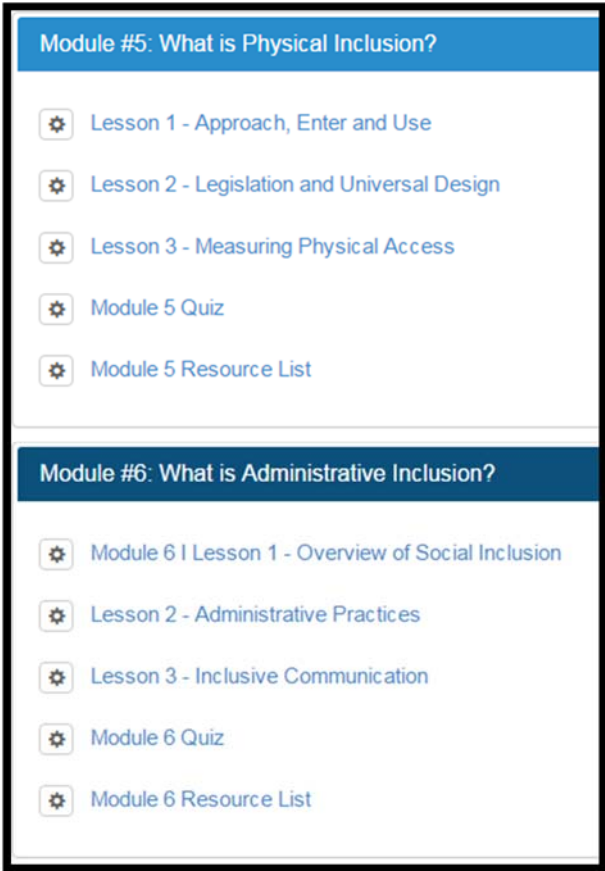

Inclusion U Online Curriculum and Design

9 Modules (Module 10 is the Inclusion U Final Exam)

Inclusion U
Module #1: Introduction
Module #2: What is Inclusion?
Module #3: What Do I Need to Know about Disability?
Module #4: Introduction to the Inclusivity Assessment Tool
Module #5: What is Physical Inclusion?
Module #6: What is Administrative Inclusion?
Module #7: What is Programmatic Inclusion?
Module #8: Partnerships
Module #9: Wrapping Up the Inclusivity Assessment Tool
Module #10: Final Exam

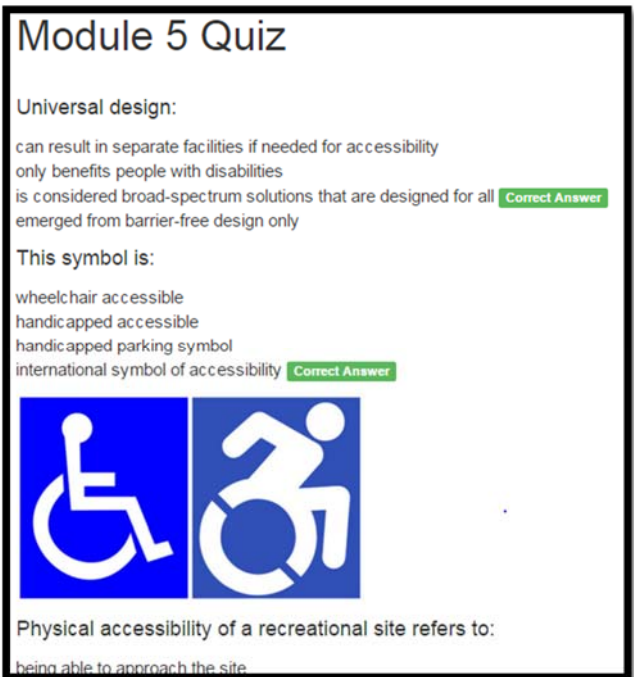

MODULES:

Each module opens up into lessons that contain presentations, videos, readings, resources, and quizzes. Students must score 80% or more on each module quiz to progress to the next module. Here are two sample modules.

LESSONS: Each lesson opens up into its respective content. Here is one part of one lesson.

QUIZZES: Here is a sample of a few quiz questions:

Training Videos

20 training videos were produced and embedded in the Inclusion U Online Training:

Video	Topic
Video 1	Route of Travel Part One
Video 2	Route of Travel Part Two
Video 3	Parking
Video 4	Measuring Distance
Video 5	Measuring Entrances
Video 6	Measuring Slope
Video 7	Registration Areas Part One
Video 8	Registration Areas Part Two
Video 9	Restrooms Overview
Video 10	Restroom Signage and Entrance
Video 11	Bathroom Stalls
Video 12	Restroom Toilets and Grab Bars
Video 13	Restroom Sinks
Video 14	Restroom Dispensers
Video 15	Elevators
Video 16	Stairs
Video 17	Comfort Stations, Locker Rooms, and Showers Part One
Video 18	Comfort Stations, Locker Rooms, and Showers Part Two
Video 19	Trails Part One
Video 20	Trails Part Two

IAT User Manual

2015 version of the Inclusivity Assessment Tool User Manual is part of Inclusion U Online as an eBook.

Certificate of Completion and CIA Card

When students successfully complete Inclusion U Online, they can print their Certificate of Completion/report card and their CIA card

Inclusive Recreation Resource Center

Certificate of Completion

Awarded to
Lynn Student
August 30, 2015

In recognition of completion of
Inclusion U
10 contact hours

Report Card

Module 1 Quiz	Module 2 Quiz	Module 3 Quiz	Module 4 Quiz	Module 5 Quiz	Module 6 Quiz	Module 7 Quiz	Module 8 Quiz	Module 9 Quiz	Final Exam
100%	100%	100%	100%	100%	100%	100%	100%	100%	100%

Congratulations on completing Inclusion U!

This is your Certified Inclusivity Assessor card.

Please print this CIA card and keep it with you when performing an inclusivity assessment.

Continuing Education Units for Professionals

IRRC was awarded CEU-granting status for Inclusion U Online with CEU-provider NYSRPS. CEU status was granted for 10 contact hours or 1.0 CEUs. The process is now on the website on the Inclusion U Online information/registration page at this link: <https://www.inclusiverec.org/inclusion-u-online>.

In addition, pre-approval of CEUs with the National Council for Therapeutic Recreation Certification (NCTRC) was granted. NCTRC deemed that Inclusion U Online meets its continuing education standards for professionals certified as recreation therapists. This pre-approval will make Inclusion U Online highly marketable to Certified Therapeutic Recreation Specialists across the U.S. and Canada.

How do I earn CEUs for Inclusion U Online?

Upon successful completion of the Inclusion U Online training, you will be able to print out your **CIA Card** and a **Certificate of Completion**.

In order to receive 1.0 Continuing Education Units (CEUs) for Inclusion U Online, you will need to mail a copy of your Certificate of Completion, along with a check for \$8.00 made out to NYSRPS, to the following address:

NYSRPS
19 Roosevelt Drive, Suite 200
Saratoga Springs, NY 12866

Note: NYSRPS (New York State Recreation & Park Society) provides CEUs according to the guidelines of the IACET (International Association for Continuing Education)

This session content is CE Pre-Approved by NCTRC

Inclusion U Online Impact

Number of participants in Inclusion U Online from 2014-2015

Who was trained through Inclusion U?

371 college students

(SUNY Cortland, SUNY Upstate, Ithaca College, Tompkins Cortland Community College, San Jose State University, University of Wisconsin-Stevens Point, University of Wisconsin-La Crosse, Syracuse University)

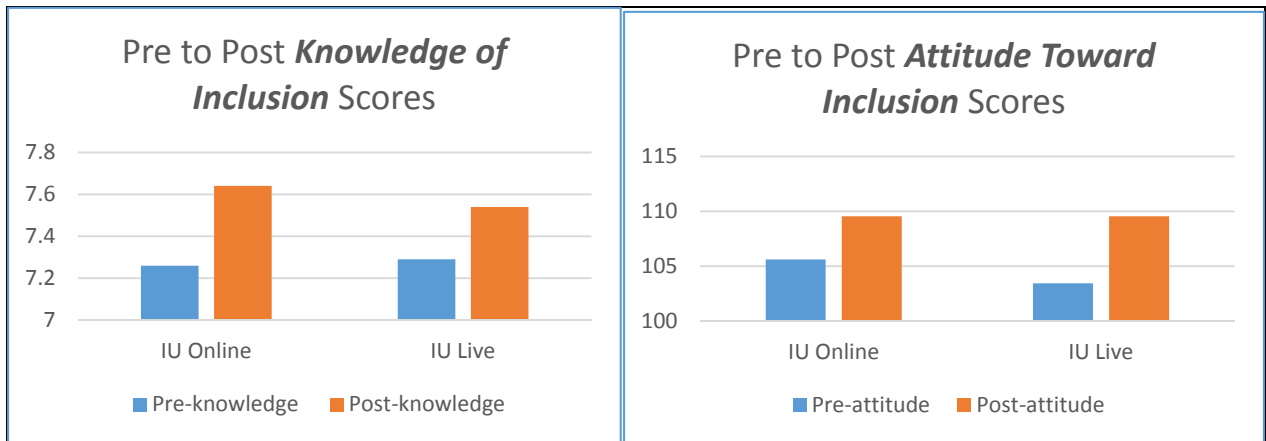

60 NYS Department of Environmental Conservation and NYS Office of Parks, Recreation, and Historic Preservation employees

21 Others (self-advocates from various agencies like independent living centers, OPWDD, DDPC, Global Abilities, ANCA, faculty at other universities, community members, parks and recreation professionals, etc.)

Changes in knowledge and attitude toward inclusion

Pre- and post-tests were given about attitudes toward inclusion and knowledge of inclusion practices. Comparison of face-to-face Inclusion U outcomes with Inclusion U Online outcomes were made. Contrary to the belief that face-to-face training is more effective, the results showed that the online version of Inclusion U was more effective in increasing knowledge about inclusion and as effective in changing attitudes.

Satisfaction

Results of Inclusion U Online satisfaction surveys showed overall high satisfaction.

Evaluation Statement	Avg. Rating (on a 5-point scale)
I learned a lot in this training.	4.46
This training taught me a great deal about inclusion and accessibility in parks and recreation.	4.43
I feel prepared to conduct an Inclusivity Assessment at a recreation agency after completing this online training.	4.23
The progression of the modules in Inclusion U Online was logical and clear.	4.49
The final exam for Inclusion U Online appropriately tested my knowledge of the material present in the training.	4.40
I feel a sense of accomplishment in becoming a Certified Inclusivity Assessor (CIA).	4.6
I plan to complete an Inclusivity Assessment within the next few months.	4.09
Overall, I am satisfied with the Inclusion U Online training.	4.43

New Responsive Design Website

Target Outcome: 1 Website

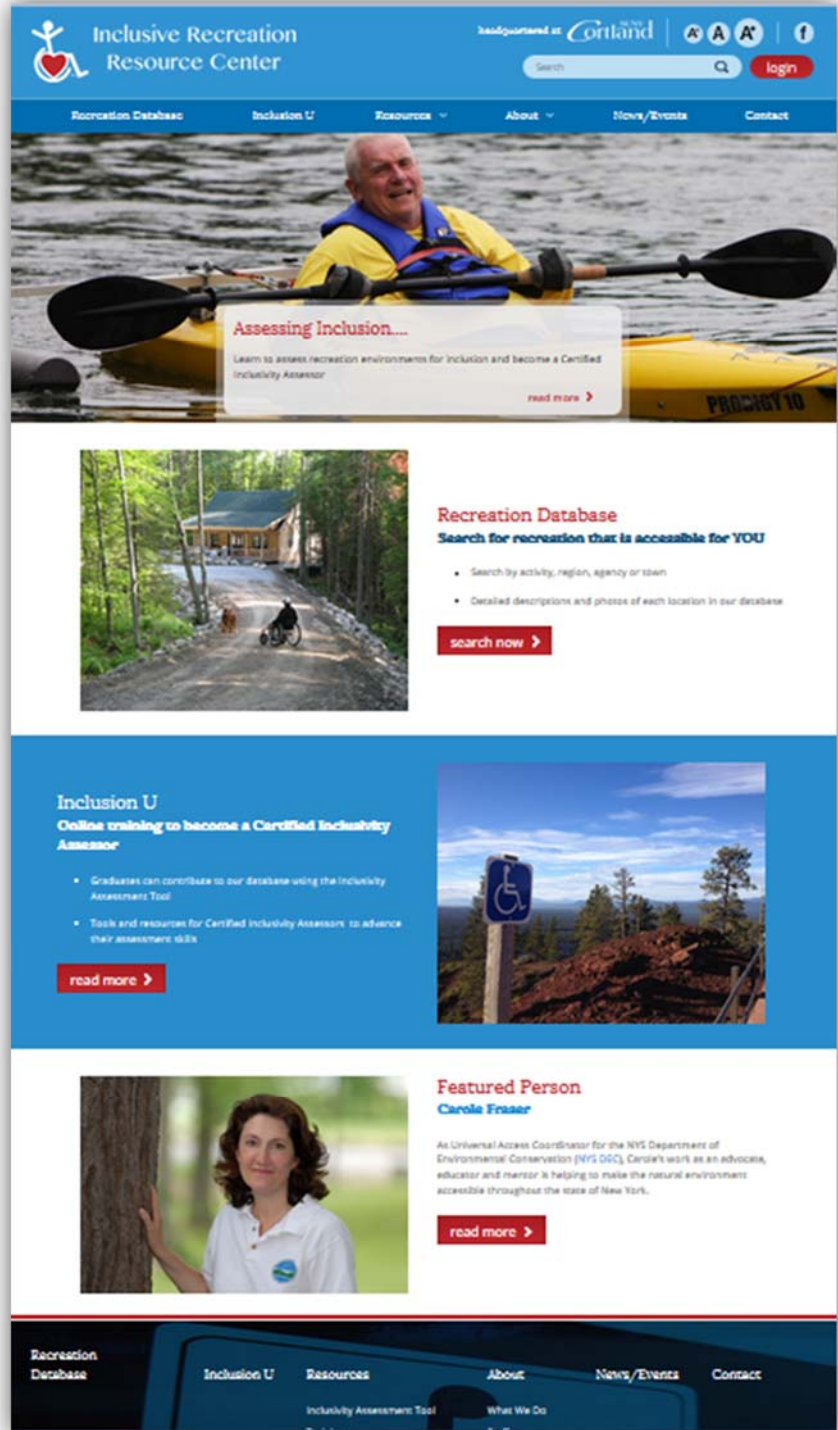

Actual Outcome: 1 Website

The new website is a responsive design, meaning that it displays well on any device, mobile or otherwise. It was designed with accessibility in mind.

Here is the website menu on a mobile device:

- Recreation Database
- Inclusion U
- Resources
 - Inclusivity Assessment Tool
 - Training
 - Useful Links
 - Useful Articles
 - FAQ Resources
- About
 - What We Do

Adirondack Scenic Railroad (Remsen Depot) 9% match
10613 Depot Road, Remsen, NY 13438 | (315)724-0700
According to agency websites: "Established in 1992, the Adirondack Scenic Railroad "travels through remote forests, past sparkling rivers, over bridges, tranquil ponds and streams, into the magnificent beauty of the six million acre Adirondack Park. Become a witness of nature's beauty and look out for the many animals and birds along the routes. Our train adventures offer many different scenic excursions departing from Utica's Union Station, Thendara Station near Old Forge, Saranac Lake Union Depot and Lake Placid Station."

Adirondack Carousel 9% match
2 Depot Street, Saranac Lake, NY 12983 | (518) 891-9521
According to Saranac Lake website, "A unique Adirondack attraction fusing art, education & entertainment. 12 years in the making, this old-fashioned form of family entertainment features 18 hand-carved Adirondack animals and a special Chris-Craft boat. With decorative paintings of Adirondack scenes donated by local artists, the Carousel is truly a one-of-a-kind attraction for this region."

Adirondack Saddle Tours 9% match
4 Uncas Road, Eagle Bay, NY 13331 | (315)390-4005
According to agency website: "Adirondack Saddle Tours Inc. has offered horseback riding in the Adirondack wilderness for over 27 years and offers some of the best horseback rides in the northeast. I, John Evans owner and founder of Adirondack Saddle Tours have been riding horses on the trails for well over 50 years and have been in the business for 29 years. We have some great guides working for us, some have taught riding for over forty years. Here, our main goal is to give you a safe and enjoyable experience."

Adirondack Lakes Center for the Arts 8% match
State Route 28, Blue Mountain Lake, NY 12812 | (518) 352-7715
Adirondack Lakes Center for the Arts (Arts Center) is a multi-arts center serving year-round and seasonal

info@wildcenter.org
Website

Summary
The Wild Center is a not-for-profit organization overseen by the Museum's Board of Trustees with the assistance of its Advisory Board. The Museum is located on a 31-acre site in the Town of Tupper Lake, NY near the geographic center of the Adirondack Park. The Adirondacks are unique in the world. Surrounded by people, they house great expanses of nature interspersed with small towns and communities. They can be an example for a future where man and the rest of the natural world find better ways to coexist.

This new Museum, dedicated to understanding this rare place, is committed to helping people explore not a small collection, but one that lives and breathes across the entire expanse of the Adirondacks.

The Wild Center is science-based, and its experiences, exhibits and programs are designed to open new ways to look into the latest discoveries made by natural scientists.

There may be no more important issue facing humankind than discovering better ways to coexist with the rest of the natural world, and there may be no better place to understand that effort than in the Adirondacks. The Museum is the place to see and appreciate the natural side of that vital story.

Agency Mission: Ignite an enduring passion for the Adirondacks where people and nature can thrive together and set an example for the world.

Description
Natural History Museum

Activities
guided hikes, winter wild days, educational

Disclaimer: The Inclusive Recreation Resource Center online database is provided as a service. Though we try to provide the most accurate and up-to-date information for all the recreation amenities in the database, we strongly encourage you to contact the agency itself before your visit/use. Remember that the information in the database is largely collected by trained volunteers.

Automated messaging updating system in the online recreation database

Each year on the date an assessment is completed, the recreation site will receive an email asking them to review their entry and send updates; for older assessments, a manual system is in place to send the update email.

Any staff with *CIA Editor* status can edit all assessments in the database and enter updates. In addition, assessments can be archived or redone. The updating system should allow the database to remain relevant and useful.

UPDATED

New Electronic & Mobile Tools for the Inclusivity Assessment Tool

 **Target Outcome: 1 Electronic Data Entry System**

 **Actual Outcome: 1 Electronic Data Entry System**

 **Target Outcome: 1 Mobile App**

 **Actual Outcome: 2 Mobile Apps**

New Online Data Entry Forms

The Inclusivity Assessment Tool and all specialty checklists are now all updated, streamlined and in a responsive electronic form.

When completing an assessment, all data goes immediately into the online recreation database, pending review by IRRC staff.

Once reviewed, the inclusivity assessment is released to the database and two emails are automatically sent:

- One to the CIA, thanking them for doing an assessment and asking them to review their assessment for accuracy
- One to the assessed recreation agency, thanking them for participating in an assessment and asking them to review the assessment for accuracy

Downloadable PDF Forms

The electronic forms are also still available for downloads as PDF files if a CIA prefers to take hand-written notes when completing an assessment, to be entered later into the online recreation database.

Specialty Forms

New App for Data Entry for CIAs

A new app was completed and is being piloted. The app is for CIAs to enter assessments in the field on a mobile device, **with or without internet connection/cell service**. If the pilot goes well, the app will be incorporated in the Inclusion U Online curriculum and will become a more convenient and easy method of data collection during an inclusivity assessment.

The app can be viewed at this link for CIAs: <https://assess.inclusiverec.org>

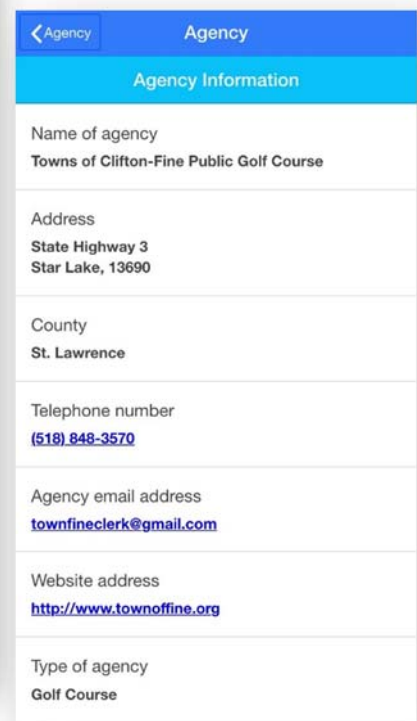

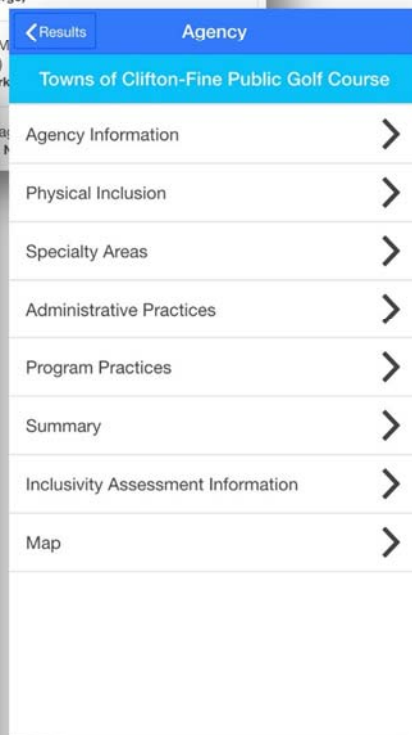

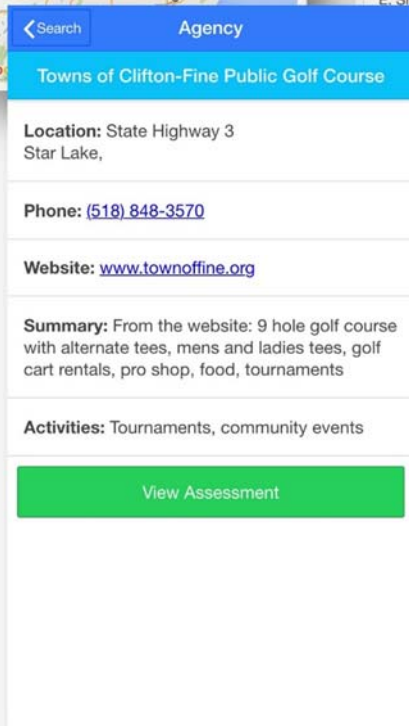

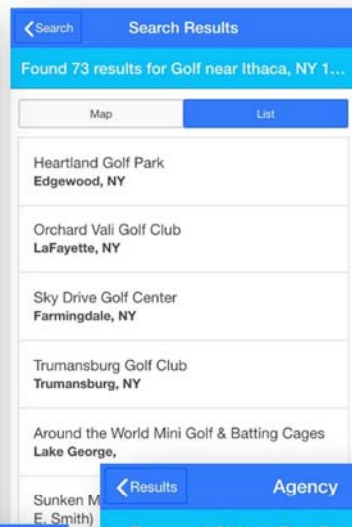

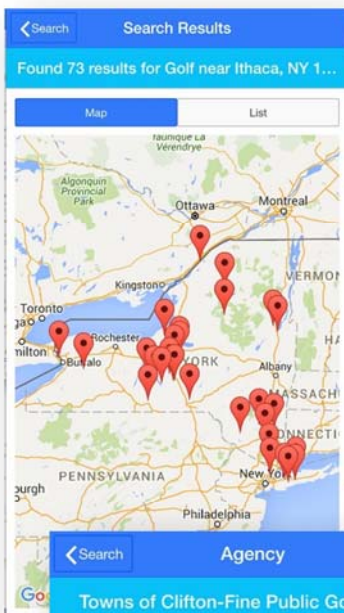

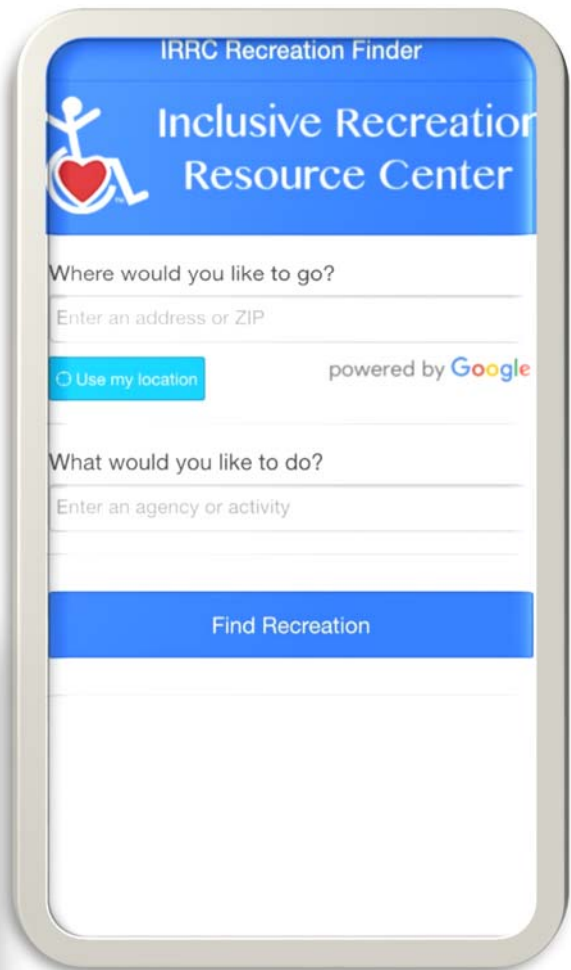

New App for Data Display for the Public – the “*IRRC Recreation Finder*”

The IRRC is also working with Gorges, Inc. to develop a mobile app for the public side of the online recreation database, the IRRC Recreation Finder. It is near completion.

However, since the database is responsive design and works on any device, this was made a lower priority over the other work we needed to accomplish.

Watch for this new app in the App Store and Google Play soon!

New Trail Accessibility Checklist

Target Outcome: 1 Trail Accessibility Checklist

Actual Outcome: 1 Trail Accessibility Checklist

Trail Checklist	
1. Identify/Agency Name:	1. Name of trail:
	2. Primary uses of the trail (check all that apply):
	3. Describe any major attractions along the trail (e.g., natural, scenic, area, historic, historic, etc.):
	4. Signage or brochure at trailhead (provide information on):
5. Trail Surface:	5. Length of trail: <input type="checkbox"/> typical and maximum running slope <input type="checkbox"/> typical and minimum trail width
	6. Trail surface type: <input type="checkbox"/> typical and maximum cross slope <input type="checkbox"/> steep of trail <input type="checkbox"/> other:
	7. Trail amenities provided:
	8. Describe the type of trail (check all that apply):
2. Trailhead:	9. Is there a continuous paved/compact route of travel from parking to the trailhead? <input type="checkbox"/> yes <input type="checkbox"/> no <input type="checkbox"/> n/a <input type="checkbox"/> photo
	10. Describe the surface of the route of travel:
	11. Slope of route of travel (at its steepest point): _____ % (inches/feet)
	12. Width of route of travel (at its narrowest point): _____ inches (or feet)
3. Trail:	13. Distance from the parking area to the trailhead: _____ feet
	14. Is the typical surface of the trail firm and stable? (see memo) <input type="checkbox"/> yes <input type="checkbox"/> no <input type="checkbox"/> n/a <input type="checkbox"/> photo
	15. Describe the typical trail surface: (check all that apply)
	16. Width of the trail (at its narrowest point): _____ inches (or feet)
4. Trail:	17. How long is the narrowest point in trail? _____ feet
	18. Steepest running slope or grade on the trail: _____ %
	19. How long is the steepest running slope on trail? _____ feet
	20. How long is the entire slope that contains the steepest slope? _____ feet
5. Trail:	21. Steepest cross-slope on the trail: _____ %
	22. How long is the steepest cross-slope on the trail? _____ feet
6. Trail:	23. Is a 3" edge protection provided along the trail in critical areas? (e.g., sharp, loose, or uneven) <input type="checkbox"/> yes <input type="checkbox"/> no <input type="checkbox"/> n/a <input type="checkbox"/> photo
	24. Describe any protruding objects or obstructions along the trail.
25. Comments/additional information regarding trail.	

Optional Information using Backpacker GPS Trails Lite App

26. Link to map, information, waypoints, and photos of trail:

27. Trail Profile (see map for trailhead, elevation profile, and photos of trail):

Pine Nursery Loop Trail

Trail Profile Summary:

- Author: System
- Date: 10 Jul 2014 10:29 AM
- Source: Backpacker GPS Trails LT using iPhone
- Activity: Hiking
- State: WA
- County: Snohomish
- Distance: 1.42 mi (0.88 mi)
- Average Speed: 1.8 mph (0:46:34)
- Difficulty: 1-10
- Topic: Trail to take a hike
- Rating: 0
- Operator: None

Development of the trail checklist

- Purpose:** To develop a “deal breaker” trail accessibility checklist that could be used as a specialty checklist in conjunction with the IAT
- Content Validity:** New federal standards, UTAP, and other best practices as well as purposive sample of trails for pilot study
- Face Validity:** Expert review by CIAs and national trail experts
- Social Validity:** Review by trail users who have disabilities
- Concurrent Validity:** Assess trail sections that have also been assessed by UTAP
- Reliability:** Comparison of measurements of same trail by two independent reviewers for 9 trails
- Usability:** All assessors completed a usability form at the end of each trail assessment
- Choosing the App:** Consultation with geographers, geologists, backcountry experts, reviews, and company reputation; chose GPS Backpacker Trails Lite: <http://www.trimbleoutdoors.com/Products/backpackergpstrails/>

400 assessments completed over two seasons

Deanna Moore, Sarah Olear, Ian Haines, and Geoff Peppel traveled all over the state of New York, camping and assessing state parks, DEC outdoor recreation areas, and historic sites.

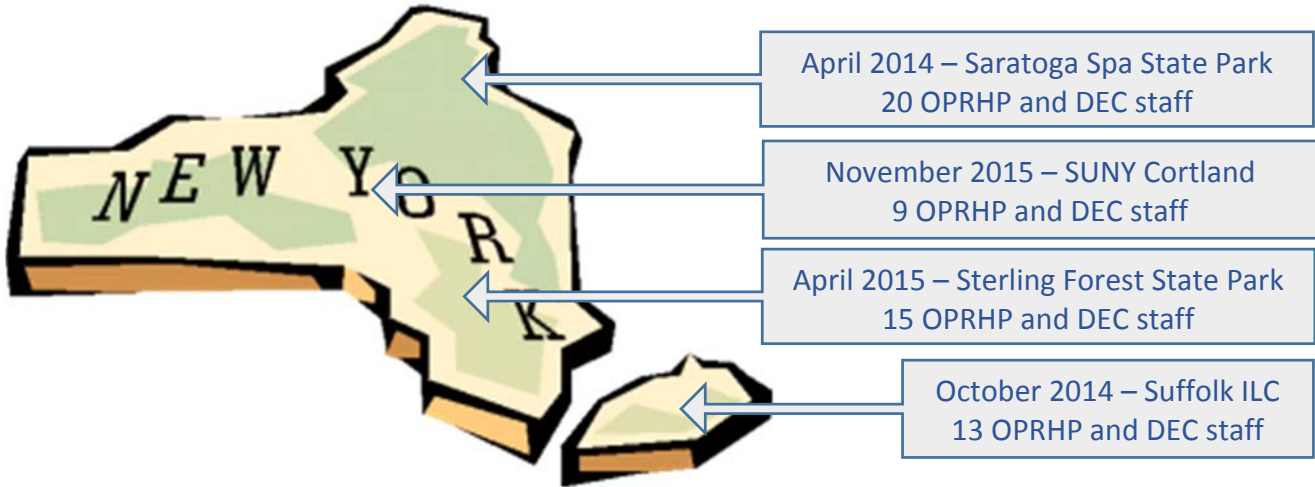

- 
 Reports sent to assessed sites with recommendations to improve usability completed after each assessment
- 
 Assessments available in the online recreation database
- 
 Reports used to make improvements at recreation sites; see other partnership outcomes below
- 
 Please see Appendix A for the complete list of OPRHP and DEC state-operated recreation sites that were assessed in the partnership.

4 Inclusion U Live Trainings

	Target Outcome: 4 Inclusion U Live Trainings for NYS DEC and OPRHP Staff
	Actual Outcome: 4 Inclusion U Live Trainings for NYS DEC and OPRHP Staff

Impact of Inclusion U Live

The results of the pre- and post-attitude and knowledge scales showed that participants experienced a gain in knowledge about inclusion and a more positive attitude toward inclusion as a result of the day-long training.

Other Partnership Outcomes

We began the project with a partnership collaboration meeting on January 31, 2014 with NYS DDPC, NYS Department of Environmental Conservation, and NYS Office of Parks, Recreation and Historic Preservation at DEC headquarters in Albany, NY, hosted by Carole Fraser, NY DEC Statewide Access Coordinator. Key participants in the partnership were Carole Fraser from DEC and Michael Washington and Debra Keville, NYS OPRHP. In the meeting, it was agreed that all follow up usability reports would be given to regional capital managers (OPRHP) and regional access coordinators (DEC) to implement recommended changes for increased usability and accessibility at assessed parks and outdoor recreation sites. The commissioner of the DEC at the time, Joseph Martens, attended the meeting and pledged his personal and agency support for the project.

Mentored Assessments

Park and recreation site managers, CIAs and others participated in mentored assessments throughout the project, where they accompanied Deanna, Sarah, Ian, or Geoff as they completed inclusivity assessments. Here is some feedback from some who participated in mentored assessments:

- “It was a great experience, I loved being able to help and it really educated me.”
- “Ian was extremely helpful during this assessment in helping me understand the different components and learn the right processes to use.”
- “I am now able to have a better understanding of what it means to have an area that is accessible. There were things that I have never thought to be inaccessible, like the measurements of a parking lot, or an extension of a picnic table. I thought going through this assessment have been very beneficial, and I am really grateful that I've had this opportunity.”
- “Happy to actually know what to look for when and learn what may make people's experience more enjoyable at the parks.”
- “Hands on assessment of an existing DEC campground was helpful.”
- “As the manager of a State Park this project has helped point out areas we need to improve.”
- “The whole experience was really great! I now have enough confidence in the assessment process that I know I could do an assessment on my own. It was a great learning experience and I appreciate the opportunity.”
- “It was helpful to learn how the assessments are conducted and look forward to reading through the report. I hope to use the assessments for future DEC planning efforts throughout or campground system.”
- “Great working with the IRRC staff on these projects! I have a new insight into these projects that will help our camping program going forward.”
- “Learning how to assess a building for people with disabilities is a great tool to have at my disposal.”

- “It has helped me to understand even better the importance of the inclusivity of facilities and allowed me to be a part of the interview.”
- “It really opened my eyes to everyday things that I do not notice that may disallow certain individuals to participate.”
- “The assessment was very detailed and specific. It gave me a lot of important information and taught me the tools needed to complete the assessment.”
- “The assessment was very detailed and specific which provided a lot of useful information.”
- “It will be helpful to know the areas where we might be falling short as far as inclusive recreation goes.”
- “It showed me the strides this state park has taken to be more inclusive. Makes me proud to be a part of the park system.”
- “It’s good because many of our parks our old and were not built to accommodate people with special needs. It nice up update what we have to meet everyone’s needs.”
- “It has been helpful that some of the corrections are very easy.”
- “Helpful for identifying ways to improve our facilities to increase access levels.”
- “Helpful getting some more information on cultural inclusion.”
- “Enjoyed this mentored assessment, really got to see what accessibility is all about.”

Other Samples of Partnership Outcomes

- NYS DEC updated its website on anglers with disabilities, incorporating the results of inclusivity assessments (website at <http://www.dec.ny.gov/outdoor/31539.html>).
- The DEC modified its policy on location of accessible campsites in campgrounds, using a more inclusive/integrated approach based on the new Guidelines for Outdoor Developed Areas. Jessica McBride and Carole Fraser of NYS DEC spearheaded the policy change after consultation with IRRC and as a result of the Inclusivity Assessments. Due to the change in policy of distribution of accessible campsites in DEC campgrounds, campgrounds became more accessible.
- The DEC modified its policy on the design of accessible spigots for water in campgrounds, using a design that is usable without grasping. Carole Fraser spearheaded the policy change after consultation with IRRC and as a result of the Inclusivity Assessments.
- Park manager at John Jay Homestead used IRRC inclusivity report for funding meeting for the coming year on capital improvements
- Several changes were made at Glimmerglass State Park (accessible surfacing at cottages and into the park office, installed an accessible paddle style handle in the shower at cottage, purchased the adjustable height and hand held shower unit, requested budget line to go towards the fishing pier at Davis and stone dust surfacing on the campsites, ordered and installed ADA elevated type campfire rings)
- Roberto Clemente State Park plans to renovate a bathroom on the bottom floor of the facility and the main picnic areas to make accessible paths and plans to purchase accessible picnic tables. Overall, there is a major amount of construction going on around the facility and Inclusion U helped the park manager understand usability more fully.
- Riverbank State Park has made inclusion a major topic during front line staff and management orientation/training periods, distributed IRRC materials to his staff and upper administration upon returning from Inclusion U at Sterling Forest, and has made attempts to reach out to local disability organizations, including talking with a local sled hockey coach to help them set up practice times for this upcoming winter.
- Gantry Plaza State Park has made inclusion training a part of staff orientation. The park is renovating major parts of their park – the modifications were in the works before the park manager attended Inclusion U, however he says the IRRC has had a major influence on the way he views accessibility at the park.

THE FUTURE

Sustainability and the Future

	Target Outcome: 1 Sustainability Plan
	Actual Outcome: 1 Sustainability Plan

Inclusion U Online

The IRRC, with assistance from Gorges, Inc. and SUNY Cortland Business Office, developed and launched the storefront for Inclusion U Online, with a \$49.95 registration fee charged for registration in Inclusion U Online.

In the process, the IRRC obtained and had installed the SSL Certificate for security. The funds from Inclusion U Online are deposited in a SUNY account to be used to sustain IRRC activities.

With several colleges and universities using or exploring the use of Inclusion U Online, and with the awarding of CEUs for professionals who take it, there will hopefully be high demand for the training, and thus a revenue source.

Development of a youth version of Inclusion U Online will further extend the educational message of inclusive recreation, as will a focus on assisting programs serving youth in becoming more inclusive.

Trails Accessibility Checklist

Create a stand-alone trail checklist (that includes parking and bathrooms) that can be used without the full Inclusion U training and the full Inclusivity Assessment and capitalizes on new technology

Create a short online training for the Trail Accessibility Checklist

Work with Parks and Trails New York, helping them implement the Trail Accessibility Checklist across the state of New York with staff and volunteers

LESSONS LEARNED

Were your objectives as stated in your application met?

YES!

New relationships/partnerships

- Strong partnership with NYS DEC and NYS OPRHP
- Strong partnership with Gorges, Inc. technology company

Next steps and plans for this project

- Follow-up survey of the 400 assessed sites to ascertain changes made to inclusivity and usability as a result of the inclusivity assessment and report (in a year, to allow changes to happen)

Other lessons learned

- Plan more time than expected to build new technology structures and put them into use; plan to troubleshoot new technology for an extended period of time, especially when building multiple interrelated systems (online training tied to online assessment tied to online database tied to recreation sites)
- Work within the culture and political system of your partners; it may take longer to accomplish the outcomes, but a trusting relationship is sustained and the long-term benefits more real

END RESULTS AND IMPACT

Project User Feedback

Inclusion U Online had a positive impact on those who completed the training. Here is some feedback in the words of participants:

-  "I really learned a lot from this training, and I think it was very well done. The information was great, the videos and readings worked well with the information, and the quizzes and final really summed up everything."
-  "Overall, I learned so much more than I was expecting. I really enjoyed this training and I can't wait to use it in my assessment."
-  "I enjoyed doing this certification and cannot wait to go and assess the agency that I have picked. Also I hope to use this when I am in the recreational field after receiving my degree to help other agencies with making their program assessable to all individuals."
-  "Great training! I learned so much about the components that make up inclusion. I feel very knowledgeable about the subject and I am very happy to have expanded my knowledge of online resources in regard to inclusion."
-  "Every section was interesting and engaging! Every minute I felt like I was learning something so valuable and true that at times I even got emotional reading it because while I am empathetic I was ignorant in some areas. This is powerful stuff and I will never look at people with any kind of disability the same way. It's not that I looked at them as "less than" but I was uneducated in how to implement my empathy in an effective and un-insulting way. I am a better person and more in tune to respecting everyone around me equally - which is invaluable."
-  "I liked describing what inclusion is and the purpose for it because many people don't know how important it is to practice inclusion. Learning and understanding the true value and importance of inclusion will enable me to share with others how important it is to practice inclusion every day."
-  "I think the best part of the online training is that I learned what I only knew partly about. I knew about inclusion but not to the extent that the online training delivered."

Here is feedback from a new Certified Inclusivity Assessor after completing her first inclusivity assessment:

-  "My husband came with me to help and he was amazed by it all. He kept saying 'Wow, I never thought about that!' It was a good experience. I enjoyed it."

Here is feedback from an agency that was assessed and included in the online recreation database:

-  "We can easily fix the paper towel problem. It was so nice to meet you and we look forward to being part of the IRRC database. We posted it on Twitter and Face Book yesterday. It is so detailed and informative and we are so pleased to be included."

Here is some feedback from lead staff at OPRHP:

👤 “Today is my official last day with State Parks. It was a pleasure working with you and your team and I applaud your efforts to ensure that all citizens of New York State are afforded the same opportunities to enjoy the recreational areas of State Parks.” Michael Washington (who took a new position at another state agency near the end of the project)

Impact Story

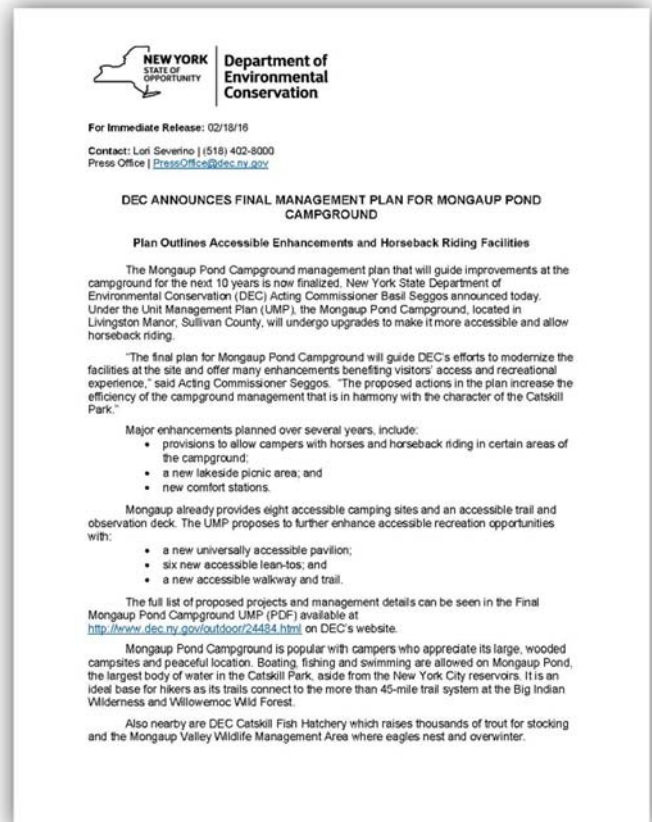

DEC ANNOUNCES FINAL MANAGEMENT PLAN FOR MONGAUP POND CAMPGROUND

Plan Outlines Accessible Enhancements and Horseback Riding Facilities

The Mongaup Pond Campground management plan that will guide improvements at the campground for the next 10 years is now finalized, New York State Department of Environmental Conservation (DEC) Acting Commissioner Basil Seggos announced today. Under the Unit Management Plan (UMP), the Mongaup Pond Campground, located in Livingston Manor, Sullivan County, will undergo upgrades to make it more accessible and allow horseback riding.

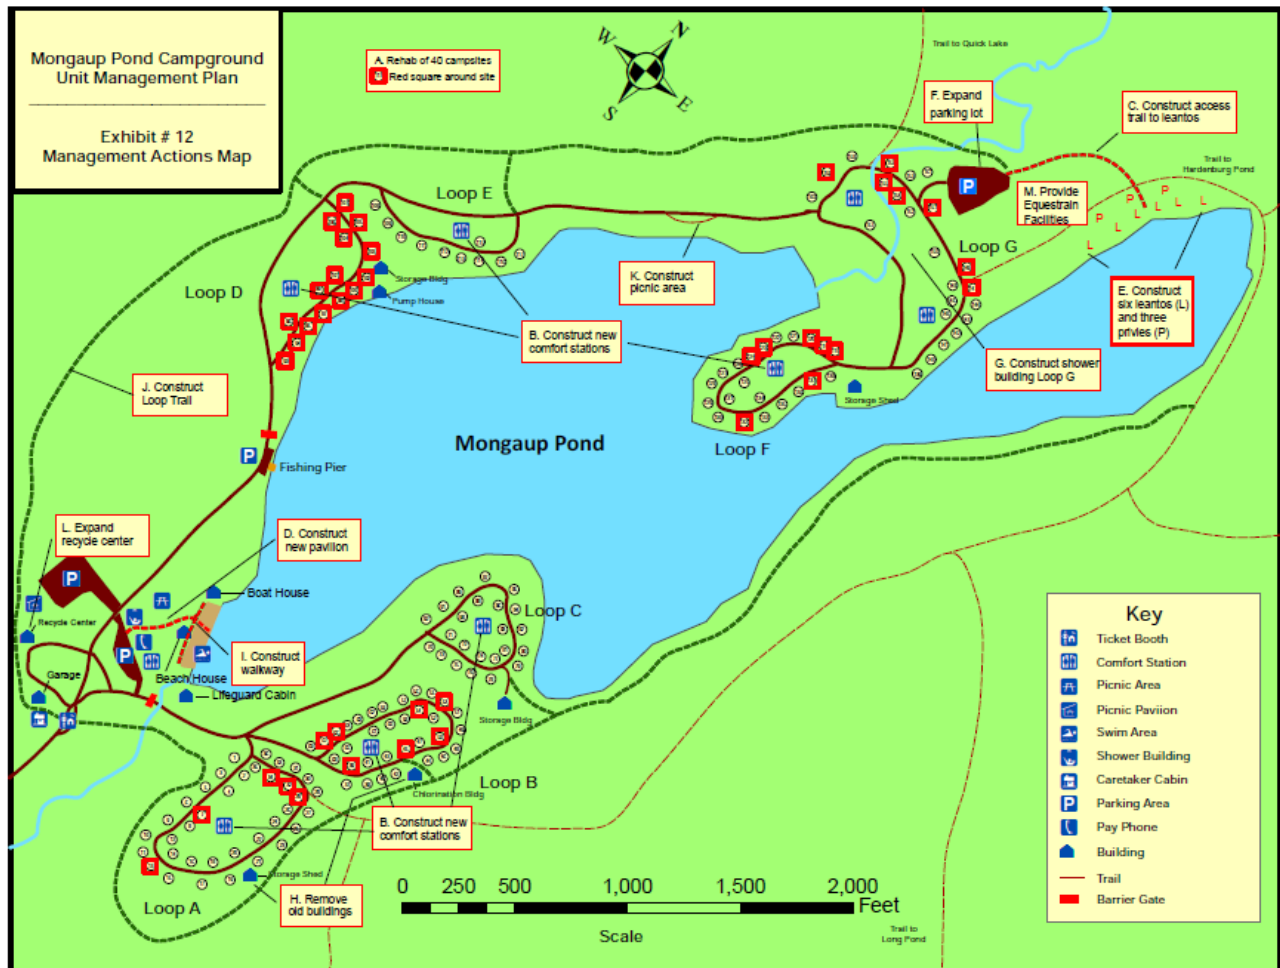

Currently none of the bathroom facilities at Mongaup Pond are accessible to persons with disabilities. With the construction of universally accessible campsites throughout the campground, accessible comfort stations need to be made available as well. It is our plan to construct six new comfort stations with universal access, to address the current deficiency in showers within the campground, create accessibility to comfort stations in all the loops for persons with disabilities, and replace our existing comfort stations that are in need of significant repair.

***“Here is the first formal plan approved by our Commissioner that mandates recommendations from the inspections! I doubt very much that the plan would contain the degree of commitments to accessibility, had it not been for the work of the IRRC bringing accessibility and inclusion into our awareness. Thank you!”
Carole Fraser, Statewide Access Coordinator.***

Proposed Management Actions

1. Construction of a new large comfort station, Loop G.
2. Construction of a new accessible walkway.
3. Expand refuse and recycling building.
4. Construction of loop trail around campground.
5. Construction of new lakeside picnic area.
6. Construction of one (1) new parking lot.
7. Construction of a new pavilion, with universal access.
8. Construction of (6) new medium comfort station.
9. Construction of a new Lean-To Access trail.
10. Construction of (6) accessible lean-tos with fireplace, and privy access.
11. Rehabilitation of (40) campground sites.
12. Removal and Disposal of Chlorination Building in Loop B and Pump House in Loop C.
13. Provide Equestrian Facilities at the campground.

CONCLUSIONS

As director of the Inclusive Recreation Resource Center, I extend my sincere appreciation to the New York State Developmental Disabilities Planning Council for the support offered over the two years of this project to build the technology infrastructure that will bring us into the future and partnerships that will pay off well into the future. The ability for the IRRC to now reach anyone anywhere makes it possible to spread our work and our message!

Also, sincere appreciation to the New York State Department of Environmental Conservation and the New York State Office of Parks, Recreation and Historic Preservation. The work being pursued by NYS DEC and NYS OPRPH to bring about lasting change in our rich recreation treasures, making them usable by all people, will benefit New York State and all its citizens well into the future and will serve as a model for other states.

Appendix A

Detailed List of Assessed Sites

Agency	Site Name	Date Assessed	Mentored?
